## 2020 STEM Robotics Challenge: V-Portfolio Overview

- All questions in the Engineering Design Process must be answered via video, voice-over or slide. Presentations will be uploaded to our YouTube account.
- Mentors will be added as contributors.
  - Only mentors should upload videos.
- Video presentations should not exceed 12 minutes.
- Team presentations should include answers to the Engineering Design Process questions via videos, slides or photos. Inclusion of photos and slides will enhance overall score.
  - Each individual question under each step of the Engineering Design Process needs to be answered.
  - Answers must be presented in a way that they are understood by those outside of the STEM field.
  - Be creative!!!
- Students can use any video and media source of their choice as long as the individual presentation can be uploaded to YouTube.
- Please see V-Portfolio scoring rubric for what you will be graded on.
- V-Portfolios are due **Thursday, May 14<sup>th</sup> by 8:00PM** via YouTube upload.
